Dream Discussion

Jeremy Taylor, D. Min states that all dreams come in the service of health and wholeness to the dreamer. This has been my experience and my upcoming book, *The Tao of Tarot: "The Way" to Health, Happiness and Spiritual Illumination through Qigong Dreaming* reflects my personal 10 year journey through dreams and what their guidance has taught me. When we follow our dreams our lives are bound to change for the better, though often in ways unexpected. My dream odyssey prompted me to leave a career in the Coast Guard, study body-mind healing through Asian Wellness, explore ancient cultures around the world and become a Qigong Dreaming teacher and author. It has been an amazing process of self discovery and a path that has brought me great joy and authenticity. As we approach spring and a time of new growth I recommend you all ponder your dreams, day and night, and see where their benevolent wisdom leads you...
